

LastPass

## 3 ways a password manager keeps you safe while shopping online

### 1 Instantly generate strong passwords

Don't waste time thinking up a secure password – **LastPass does it for you.**

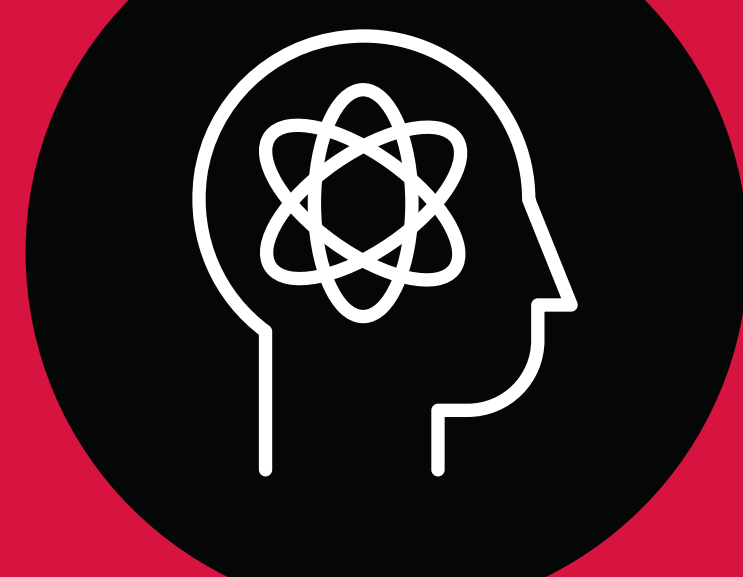

Generate, save, and sync secure, random passwords across all your devices, at **any time.**

### 2 Store those strong passwords in a secure vault

Don't worry about memorizing all those strong passwords – **LastPass remembers** them for you.

Store your passwords (and credit card numbers) in an **encrypted vault** across all your devices.

### 3 Autofill those strong passwords

Don't waste precious time typing in passwords and payment details – **LastPass autofills** them for you.

Plus, LastPass won't autofill sites that aren't secure – **keeping you safe from phishing.**

LastPass

When it comes to snagging deals as an online shopper, every second counts.

Learn how LastPass helps you save time while keeping you safe.
